TRADECORP Ca

RECOMMENDATIONS

Calcium chelated with EDTA in high solubility microgranular form. Recommended for the prevention and correction of deficiencies in all kind of crops and soils.

RATES

Fertigation: 1-2.2 pounds/acre (1-2.5 kg/ha) per application repeating 3-5 times along the crop cycle.

Flood irrigation: 3.5 pounds/acre (4 kg/ha) per application

COMPATIBILT

Compatible with most fertilizers and phytosanitary products. Perform a test before mixing in quantity. Maintains good stability, in pH range of 2-9.

WARNING

Keep it out of the reach of children. Dangerous if swallowed. If on skin or in eyes, flush with large quantity of water. Store in a cool and dry place.

WARRANTY CLAIM

TradecorpUSA warrants that this product conforms to the chemical description on the label and is reasonably fit for the purpose stated on the label when used in strict accordance with the directions, subject to the inherent risks set forth below. TradecorpUSA MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY OTHER EXPRESS OR IMPLIED WARRANTY.

RISK OF USE

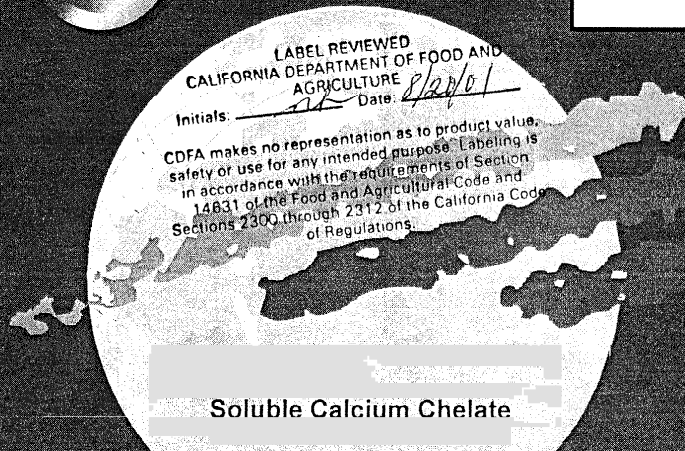

It is impossible to eliminate all risk associated with use of this product. Plant injury, lack of performance, or other unintended consequences may result from use of such factors as use of the product contrary to label instructions (including conditions noted on the label, such as unfavorable temperature, soil conditions, etc.) abnormal conditions (such as excessive rainfall, drought, tornadoes, hurricanes), presence of other materials, the rate of application, or other factors, all of which are beyond the control of TradecorpUSA or the seller. All risks shall be assumed by buyer.
