Water Level Data -- Verified 6-minute Composite Raw Data Table

December 24, 2002 through April 14, 2003

The tables are very useful for determining the exact water level at any 6-minute interval. This table is verified data for the 9414863 Richmond, Chevron Pier station. You can duplicate this information by going to the NOAA/NOS CO-OPS site. Select the Richmond station, time interval W1-6 minute, Datum MLLW, Data units Feet, Time zone LST. Select your begin date and end date, up to a 30-day period. Then select View Data. I have adjusted the times for the Daylight Saving portion of this composite table (April 6-14). TIP: To quickly find a specific date and time, click Edit on your browser's menu, select Find on this Page, and then type in the mo/dd, followed by 4 spaces, then the time. Example: "04/01 23:30" (without the " " marks). That will take you to April 1, 11:30 p.m.

DECEMBER 2002	12/24 02:12 4.58	12/24 04:30 5.31
12/24 00:00 2.33	12/24 02:18 4.63	12/24 04:36 5.29
